Fixed-Term Investment Plans

Regular payouts every quarter, half-year or year

4× **Quarterly**
payouts a year

2× **Half-yearly**
payouts a year

1× **Yearly**
payouts a year

1- and 2-year terms · from $25,000

How it works

1

Choose your amount

$25,000, $50,000, $75,000 or $100,000

2

Lock it in

For a term of 1 or 2 years

3

Pick your payout term

Quarterly, half-yearly or yearly

4

Get paid

Interest every period, your full amount back at the end

Good to know Interest is simple (not compounded) and starts the next business day after you invest. Prefer part of your money back with every payout? Choose **Interest and Principal** instead of Interest Only.

Quarterly payouts

Interest every 3 months, 4 payouts a year, your full amount back at the end of the term

Every quarter you receive

on $25,000

$500

on $50,000

$1,000

on $100,000

$2,000

Investment	1-year term (4 payouts)		2-year term (8 payouts)	
	Interest	You receive	Interest	You receive
$25,000	$2,000	$27,000	**$4,000**	$29,000
$50,000	$4,000	$54,000	**$8,000**	$58,000
$100,000	$8,000	$108,000	**$16,000**	$116,000

Example: $100,000 for 2 years earns **$16,000 in interest** (8 payouts of $2,000), plus your $100,000 back at the end.

Interest Only payouts shown. Illustrative figures; see the disclaimer at the end.

Half-yearly payouts

Interest every 6 months, 2 payouts a year, your full amount back at the end of the term

Every 6 months you receive

on $25,000

$1,125

on $50,000

$2,250

on $100,000

$4,500

Investment	1-year term (2 payouts)		2-year term (4 payouts)	
	Interest	You receive	Interest	You receive
$25,000	$2,250	$27,250	**$4,500**	$29,500
$50,000	$4,500	$54,500	**$9,000**	$59,000
$100,000	$9,000	$109,000	**$18,000**	$118,000

Example: $100,000 for 2 years earns **$18,000 in interest** (4 payouts of $4,500), plus your $100,000 back at the end.

Interest Only payouts shown. Illustrative figures; see the disclaimer at the end.

Yearly payouts

Interest once a year, 1 payout a year, your full amount back at the end of the term

Every year you receive

on $25,000

$2,500

on $50,000

$5,000

on $100,000

$10,000

Investment	1-year term (1 payout)		2-year term (2 payouts)	
	Interest	You receive	Interest	You receive
$25,000	$2,500	$27,500	**$5,000**	$30,000
$50,000	$5,000	$55,000	**$10,000**	$60,000
$100,000	$10,000	$110,000	**$20,000**	$120,000

Example: $100,000 for 2 years earns **$20,000 in interest** (2 payouts of $10,000), plus your $100,000 back at the end.

Interest Only payouts shown. Illustrative figures; see the disclaimer at the end.
